Product description:  
Pull-out cabinet for storing folders, books etc. made of chipboard lined with laminate and 2 mm ABS edges.  
NOTE: You can always contact Cube Design for spare parts for your pull-out cabinet or other Cube products.  
No biocides or disinfectants have been used on this product.

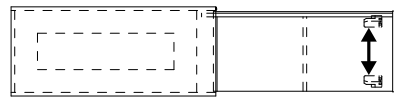

## Design for disassembly

0

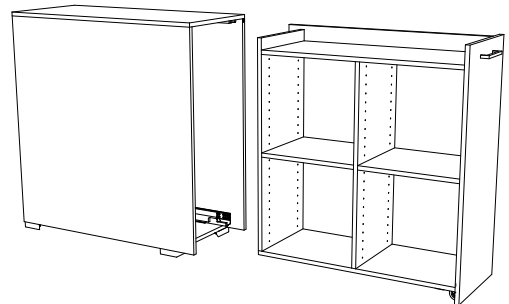

Disassembly tools:  
1x flat-head screwdriver  
1x Phillips screwdriver  
1x rubber hammer

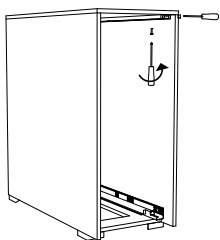

1

Pull out the pull-out cabinet to the outer position.  
Use both hands to release the clutch under the cabinet.  
Now the two parts can be separated.

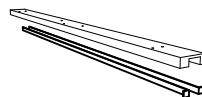

2

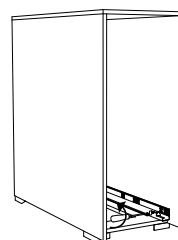

Remove the metal logo with the screwdriver.  
Remove the list at the top by unscrewing the seven screws with the Phillips screwdriver.

3

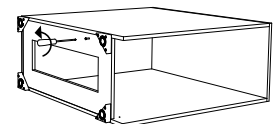

Pull the felt off the list.

4

Remove both pull-out brackets by unscrewing the four screws from each bracket with the Phillips screwdriver.

5

Lay the box on the side. Remove the feet by unscrewing the three screws from each foot with the Phillips screwdriver.
